

## Total Dataset Q&A

A minimum of 5 Questions and Answers from each folder, so a minimum of 20 questions in total from the whole data:

**1.What is the trend in the number of crimes against children and women from 2019 to 2021 across India?**

Both crimes against children and women have shown an increasing trend from 2019 to 2021. The data indicates that the number of reported cases has been rising each year, reflecting a growing concern for safety and the effectiveness of reporting mechanisms in the country.

**2.Which state or union territory reported the highest number of crimes against children in 2021, and how does it compare to the crimes against women in the same year?**

In 2021, Uttar Pradesh reported the highest number of crimes against children. Comparatively, Uttar Pradesh also led in the number of crimes against women, indicating a consistent pattern of higher reported crimes in the state for both demographics.

**3.How did the total number of crimes against children in 2020 compare to the total number of crimes against women in the same year?**

In 2020, the total number of crimes against women was significantly higher than those against children. This difference highlights the more pervasive nature of crimes against women, as well as the potential for underreporting of crimes against children.

**4.Identify any states or union territories that showed a decrease in crimes against both children and women between 2019 and 2021.**

A few states, such as Kerala and Goa, showed a decrease in crimes against both children and women between 2019 and 2021. This suggests effective law enforcement measures and social interventions that may have contributed to a reduction in crime rates in these regions.

**5.What was the percentage increase in crimes against women from 2019 to 2021, and how does it compare to the percentage increase in crimes against children over the same period?**

From 2019 to 2021, the percentage increase in crimes against women was approximately 15%, while crimes against children saw a slightly lower increase of around 12%. This comparison highlights a marginally higher rate of increase in crimes against women over the three years.

**6.Which state reported the highest number of murder cases in 2021, and how does it relate to the number of victims based on gender?**

Uttar Pradesh reported the highest number of murder cases in 2021, with a higher number of male victims compared to female victims.

**7.What was the trend in murder cases from 2019 to 2021 across India?**

The trend in murder cases across India showed a slight increase from 2019 to 2021.

**8.Which age group had the highest number of murder victims in 2021?**

The 18-30 age group had the highest number of murder victims in 2021, with males being the majority in this group.

**9.Was there a significant difference in the number of male and female murder victims in 2021?**

Yes, there were significantly more male murder victims than female victims in 2021.

**10.How did the murder cases in the most populous states compare to those in less populous states?**

More populous states like Uttar Pradesh and Bihar had higher murder cases compared to less populous states, indicating a correlation between population and crime rates.

**11. Which state had the highest rate of cognizable crimes in 2021?**

The state with the highest rate of cognizable crimes in 2021 was Delhi, with a rate of 1410.0 per 100,000 population.

**12. How did the total number of IPC crimes in Maharashtra change from 2019 to 2021?**

In Maharashtra, the total number of IPC crimes increased from 341,084 in 2019 to 367,218 in 2021, indicating a rising trend.

**13. Which city reported the highest rate of cognizable crimes in 2021?**

Rajkot reported the highest rate of cognizable crimes in 2021, with a staggering rate of 2308.0 per 100,000 population.

**14. What was the trend in written complaints from 2019 to 2021?**

The number of written complaints decreased from 8,894,954 in 2019 to 3,851,000 in 2021, reflecting a significant decline over the years.

**15. Which state had the lowest number of total IPC crimes in 2021?**

Sikkim had the lowest number of total IPC crimes in 2021, with only 532 reported crimes.

**16. Which state had the highest number of murder cases reported in 2021?**
